Third Sigma

To whom it may concern,

I am writing to you about your recent advertisement on seek, I believe I have the skills and experience to excel and become a welcomed addition to the team.

I previously have worked as a computer repair technician and IT consultant and have experience dealing with customers with limited technical knowledge. More recently I have worked in primarily a customer service and leadership role as a Security Supervisor in an unrelated industry.

I have an understanding of the Microsoft Office Suite and previously have been responsible for all IT solutions to a small business. Not only did this involve resolving any technical issues but also setting up and maintaining the network of routers, printers, servers and computers in Windows, Linux and OS X environments. In my spare time I enjoy learning about web development technologies.

I hope that you agree that my experience meets the requirements set out by your advertisement and look forward to reigniting my IT career with you if I am fortunate enough to be considered for this role.

Regards,
Rhys Murray
